

WT-610G Plane Labeling Machine

WT-610G dedicated to the labeling on the surface of the object, the whole perfect design. High-performance control and detection systems. Ensures fast and accurate labeling. Man-machine interface. English interchangeably, more random help system. So you really worry

Product Features:

Labeling the first use of plant-precision servo motor control bids.

Dual-stage clutch design. Tension so that the label is more stable, easy to improve the accuracy of labeling

Siemens control system with touch screen display of plants, oak bilingual interface operation

Easy to adjust the labeling head, labeling speed and conveyor speed sync track.

Conveyor line speed, pressure belt speed, the speed can be marked on the east by a touch-screen display settings control

Technical parameters

Type	WT-610G
Labeling speed	1-50 m / min
Labeling accuracy	± 1mm
Maximum label width	190mm (can be designed according to customer requirements)
Roll inter	Φ76.2 mm # e8e6e6
Applicable roll diameter	Maximum Φ330mm
Dimensions	L2000 * W700 * H1400 (mm)
Weight	180KG
Use Power	220V 50HZ 1500W
