

## *Automatic Capping Machine*

Product Code : 06

Our years of knowledge in this industry allows us to manufacture, supply and export Automatic Capping Machine. We manufacture these machines at our huge infrastructure by latest machines and tools. These products are used in various industries and are widely acknowledged for their optimum quality. These machines are known for their features like noise free operation, less power consumption, easy operation and corrosion resistance. Our quality experts check this Automatic Capping Machine on different parameters such as:

- Sturdy construction
- Compact design
- High load bearing capacity
- Durability

### **Other information:**

#### **Salient Features**

- Single motor synchronizes conveyor, star wheel, platform turret.
- Adjustable height of conveyor belt, to align with other machine of the line.
- Sealing pressure can be varied to suit different gauges and size of caps.
- Specially designed hopper is provided to increase storage capacity of bowl.
- Low noise level, low power consumptions.
- Self-lubricating UHMW- PE guide profile for low friction wears surface, smooth and noiseless conveying.
- Drain tray around the machine platform.
- SS cladding or hard chrome plating of all exposed parts to ensure long life and resistance against corrosion.
- Synchronized A/C drives to synchronize, Conveyor, Star wheel and Platform turret capping bowl.
- Universal coupling for quick and easy setting of In-feed worm.

## Technical Specification

Output / Hour*	3600 to 6000 vials.	3600 to 9000 vials	4000 to 12000 vials
Direction of Movement**	Left to Right		
No. of sealing head	4 Nos.	6 Nos.	8 Nos.
Electrical Specification**	Main MotorCap	1.5 HP / 415 Volts / 50 Hz.	2HP / 415 Volts / 50 Hz.
	Feeding Bowl	0.25 HP / 415 Volts / 50 Hz.	
Height of Conveyor**	860 mm to 910 mm.
