

Automatic Pump Head Capping Machine CGJ

Used for a variety of cosmetics, pharmaceuticals, veterinary drugs, pesticides, lubricants industry bottle cap machine equipment.

Features

1. With constant torque capping head, the pressure can be easily adjusted.
2. Compact and reasonable, it can be easily connected to other equipment.
3. The linear design makes the assembly line convenient and beautiful.
4. The speed of the main engine is controlled by a frequency converter, which enables stepless speed regulation.

Technical Parameter:

Model	CGJ
Voltage	220V 50/60Hz
Power	600W
Applicable bottle diameter	30-300mm
Applicable cap diameter	20-80mm
Production capacity	40-60/minute
Machine size	2200×950×1300mm
Machine weight	200kg
