

## *FB30 Powder seaming machine*

This is the latest automatic powder seaming machine which suits high clean and high precision tinplate canned milk powder, protein powder and other powder cans.

The whole system is mainly of power-driven and pneumatic, PLC controls whole process. User could setup or change the working data as required on touch screen. Automatic can-in, can-out, covering and seaming, the over-all properties reach to similar machines.

Most of the machine is made of stainless steel, the structure is simple and beautiful, and it is reach to GMP quality standard.

### 主要技术参数

封罐头数	1
生产能力	8~25罐/分 cans/min
适用罐径	Φ99~153mm
适用罐高	100~240mm
功 率	1.5kw
重 量	600kg
外形尺寸	1600 × 1100 × 1600mm
