

## 4 Line 4 Side Seal Liquid Packing Machine VFH-4S-L4

- Make 4 Side Seal Bag(4 Lines At A Time)
- Piston Filler Integrated
- Efficiency with 60 to 160 Bags per MIN.
- Stainless Steel Frame and Steel Frame with Powder Coating for Choose

### Basic Information:

- MCU control system with 5 inch LCD HMI. Working Status Indicated.
- Photocell for film length registered and automatic adjustment in 3 bags.
- Simple and fast bag size changeover with one-piece forming set.
- Work with most of laminated heat seal films.
- All product contact parts in #304 stainless steel or food grade plastic.
- Sealing Jaws cover protector.

### Additional Info:

Bag Styles:	4 Side Seal Bag, 4 lane Bag
Bag Width:	20 to 60mm (0.8 to 2.3")
Bag Length:	30 to 100mm(1.18 to 3.94")
Product Characteristic:	Liquids, Pastes
Dosing System Compatible:	Piston Filler Integrated
Running Motion:	Intermittent
Working Efficiency:	60-160 Bags/Min
Control By:	MCU with LCD
Date Coding Can Be:	Hot Stamping Coder
Options Available:	SS Frame
Film & Reel:	0.04-0.12mm (30-120mic.) Real Max.Dia.400mm(15.8") Max. Reel Width 400mm (15.8")
Power & Voltage:	2.6KW
Compress Air:	Cylinder Driven Piston Filler Need 0.4-0.6 MPa
Dimensions:	820*1220*2000mm (32.3*48*78.7")
Machine Weight:	400 KGS
