- It has the 304 stainless steel appearance structure.

Application:

- It applies to capping of bottles of which mouth height is consistent with or higher than the body height.

Technical:

Item	SFXG-60-2
Screwing speed	10-40 bottles/min
Power	AC220V 50/60Hz W
Weight	550kg
Pressure range	0.4-0.6Mpa
Host dimension	1580×810×1775mm
Weight of capping machine	345kg
Dimension of capping machine	1060×560×2300mm
