

XG-100 linear capping machine

Applications:

Bottle capper for:
plastic cap, metal cap etc

Typical Packaging Application:
- High production of bottle
- Trunk key solution of filling line

Features:

- Auto cap loader and feeder, save labor cost
- Integrated design of cap load, feeder, capper
- Easy Dismantle and Clean
- Easy adjust for various bottle shape and size
- Easy connect with filling and labeling machine
- PLC Control and Touch Screen Operation

Technical Dates:

Model	XG-100
Bottle Size	D:50-100mm H:50-2000mm
Cap Size	D:30-100mm
Capacity	Max 100bottles/min
Qualified Rate	99.9%
Air Source	0.6Mpa, 0.2cube minter/min
Voltage	1Phase 220V, 1.0KW, 50/60HZ
Overall Dimension	2700×830×2190mm
Net Weight	3450KG
