

## Air Free Liquid Vertical Filling Packing Machine SL530J

### The scope of application:

Seasoning soy sauce, sauces, egg white, soymilk, vegetable juice and other liquids; stuffing, jam, peanut butter, pasta sauce, tomato sauce, meat sauce, radish mud, oil, detergent, paste, lubricant and other viscous.

### Main Features:

1. Achieve high temperature, high viscosity, and high precision filling packaging;
2. The machine main material and components are used 304 stainless steel, suitable for the food industry;
3. Used imported electrical and pneumatic components to keep the machine are more durable;
4. Adopted extrusion-exhaust packaging method, packaging specifications and range are very extensive;
5. Can be combined with different kinds of filling devices
6. The whole machine design is complied with GMP standards and CE certification;

### Technical parameters:

Machine type	SL530J
Fastest packing speed	5-20 bags / min
Filling amount (ml)	1000-5000
Bag form	Backpack bag
Bag size (mm)	Bag width 65-250
	Bag length 120-500
Maximum film width (mm)	530
Packaging film material	Applicable to transparent composite film (NY / PE, ect), and apply some vacuum aluminum film
Total power (kw)	1.75
Dimension (mm)	900 (W)×1300 (L)×1890 (H)
Power supply	220V 50HZ
Weight (kg)	About 600
