

Automatic Powder Packaging Machine series JR-220A

Technical characteristics:

- The use of photoelectric eye control system, you can automatically track the cursor on the packaging film to ensure that the bag length.
- Using a stepper motor pull film, with stable performance, low noise characteristics;
- The use of spiral measuring machine, easy to adjust the packaging weight, with high precision characteristics;
- Can automatically complete the measurement, filling, bag making, date printing and other packaging process.

Applications:

Suitable for packing powders, such as milk powder, flour, talc powder, mask powder, slimming tea and veterinary powder, etc.

Technical parameters:

Model	JR-220A
Measurement method	Screw type
Measuring Range	1-80ml
Bag Length	40-150mm
Bag Width	30-100mm
Packing Speed	40-70bags/min
Sealing shape	Three side seal, four side seal, back seal
Power supply parameters	220V,50/60Hz,1000W
Dead Weight Of Machine	220kg
Overall Size	(W)640x(L)700x(H)1550mm
