

ZX-A Chocolate Filling and Capping Machine

1. The machine is clean and bright, and is made by stainless steel except rack part reach to the existing standard of food industry.
2. Electric and pneumatic combined driving is used, resulting in stable driving. Filling, downward-capping and cap-screwing are fully automatic in order to save man power and reduce cost.
3. Revision device of photoelectric sensors are installed in the machine. If cap jam in the machine, it can timely alert operator to inspect and adjust the equipment in order to avoid waste.
4. According to customer demand, we can add or decrease auto bag feeding device, auto cap vibrating device, cover, PLC and touch screen.

Technical parameters:

机型Model	ZX—2型	ZX—4型	ZX—6型	Zx—8型
参数Parameter				
包装速度(杯/小时) speed(cup/h)	2000-3000	4500-6000	6500-7800	8000—10000
充填容量(ml) filling volume	≤20			
使用电源 power used	380v/50Hz			
调速方式 Speed adjustment mode	变频调速 frequency control of motor speed			
耗气量(m ³ /min) air consumption	0.6	0.70	0.6	0.75
整机功率(KW) power	3.8	3.8	5	6
