

KS-T20 Simple Packaging Machine to Make Inner Bag

Teabag Packaging Machine KS-T20, called filter tea packing machine as well, is an full-automatically equipment for packing tea-bag drinks or granular products like tea, coffee, Chinese herbs, health care tea into small packet with hanging thread and creative label. As a professional packaging solution for inner teabag, this machine is capable of automatically completing bag-making, filling, measuring, sealing, cutting and counting, which would highly improve the working efficiency and reduce labor expenses for enterprise. With the powerful engine, KS-T20 can make 1800 to 3600 bags per hour in good effect. Importantly, for health is what should be firstly considerate, this KS-T20 is manufactured in conformity with the highest sanitary requirement for the inner products.

Main Performance and Structure Features

1. High precision structure for simple and easy operation and maintains.
2. Envelope is controlled by stepping motor, to make accurate bags size and positioning.
3. All parts in contact with materials adopt SS304, up to GMP standard.
4. Some of cylinders adopt imported brand, which can ensure the machine in stable operation.

Technique Performance

Measuring Scope	1-5g
Bag size	L: 50-70mm*W:45-80mm
Label Size	L:22-28mm*W:23-28mm
Packing Speed	30-60 bags/min
Total power	1.6kw
Dimension	(L)900*(W)950*(H)1800mm
Machine weight	350kg

Packaging Materials	Filter cotton paper, cotton thread, tag board, plastic-coated paper
Main Engine	220V、370W、YJ7134, single phrase, 1400 round/min
Heater	Two vertical sealing: 110V 250W ; Two horizontal sealing 110V、300W
Control System	40W
Input Power	220V、50HZ
