

Automatic Snacks Packing Machine CK-420AZ

The automatic snacks packing machine adopts a new design to make the model more high-grade, and the sturdy and beautiful protection door has good waterproof and protection functions. More than 90% of the parts are made of high-quality stainless steel, which makes the snacks packing machine life longer.

Automatic Snacks Packing Machine Advantages:

1. Customizable: Customized services are provided according to the customer's materials to meet the individual needs of the customer.
2. More stable: The "stable time fixed development mode" is adopted to ensure the long-term stable operation of the combination scale and to achieve the core factor of material saving.
3. High precision: The snacks packing machine through accurate calculation and control of the hopper motor rotation time, line vibration machine delay, line vibration machine action time and other indicators, the interference factors for reading weight values are avoided to the utmost.
4. Multiple combinations of mode options: Digital and modular, single and multiple outlets, high precision and high speed.

Automatic Snacks Packing Machine Composition:

Combination scale: The perfect combination of high precision and high speed, the best combination is instantly selected from a rich weight combination by computer calculation. According to the characteristics of the object to be measured, the opening and closing speed of the hopper door can be finely adjusted to prevent breakage and jamming. Powerful data automatic statistics function, record the total number of packages, pass rate and single bag error of each batch of production.

Packing machine: The snacks packing machine is suitable for quantitative weighing of various granular, flake, strip and irregular shapes of candy, melon seeds, potato chips, Namkeen, kurkure, peanut, potato chips, pet foods, puffed foods, etc.

Z type hoist: The hoist is suitable for vertical lifting of food, feed and other materials. The hoist is driven by the chain drive to lift the hopper for vertical conveying of particles and small pieces of material, which has the advantages of large lifting capacity and high lifting degree.

Model	CK-420AZ
Air consumption	2.5m ³ /min.6kg/cm ²
Max. Film width	Max.420mm
Bag length	80-300mm
Bag width	80-200mm
Max. film roll diameter	Max.360mm
Packaging speed	5-60 bags/min
Packing thickness	0.04-0.08mm
Power supply specification	220V.50/60Hz.2.4KVA
Dimension	(L)1100x(W)925x(H)1620mm
Packing machine weight	850kg
