

Automatic Electronic Scale Tea Packing Machine MZH-60DQ

This Automatic Electronic Scale Tea Packing Machine is suitable for the weighing and packing of medicinal tea, scented tea, eight-treasure tea, multi-material combination tea and other materials.

Detailed introduction

1. This Automatic electronic scale tea packing machine can automatically complete the blanking * bag-making * metering * filling * sealing * cutting * counting, can be configured according to the requirements of the code function.
2. Touch screen operation PLC controller, driving stepping motor control bag length, stable performance x detection accurate x adjustment convenient.

Packaging capacity:	1-30 g
Packaging speed:	20-35 packages per minute (depending on the characteristics of materials)
Sealing method:	three-side sealing * back sealing
Bag-making size:	length :30-170(mm) width :30-130(mm)
Power source:	220V/ 50z / 1.5kwo gas source: "0.6m3/min
Weight:	about 250 Kg
Dimensions:	1080*1255*1880(mm) (l*w*h)
