

## *Automatic Inner And Outer Tea Bag Packing Machine DXDK 10CH-1*

1. In order to meet the requirements of GMP standard in pharmaceutical industry, the parts and exterior trim surfaces of the body in contact with materials are made of stainless steel.
2. The speed of the whole machine can be adjusted stepless
3. The speed is steady
4. The noise is low

## DESCRIPTION

1. Bag making system adopts step motor subdivision technology, the bag making accuracy is high. The error is less than 1 mm.
2. Adopt temperature controller to make sealing quality higher.
3. Microcomputer bag length controller, can design bag length without replacing parts, and can preset counting, display packing speed and bag length etc.
4. Bag clipping, bag dropping, tag sealing and thread cutting adopt pneumatic and mechanical coordination, make performance stable and reliable.
5. Adopt PLC touch screen programming control, make the performance more stable, the operation easier, more humanized.
6. All parts touching with product are 304 stainless steel.
