

Automatic Box Cartoning Packing Machine YC-120

Automatic Box Cartoning Packing Machine (box folding→filling→packing) it is a special design to automatically pack small quantities' multi sizes box. With low cost and only require small area. It is suitable for various sizes of box. The machine belongs to a vertical type with multiple function and require a short time to change molds. Which is adapted to the cylindrical, bar, tube and bottle objects and adapted to the pharmaceutical, food, cosmetics and other industries. The process involves five parts: feeding, detection, sealing box, counting, output box. The machine is made of SUS 304 stainless steel and aluminum alloy with anode treatment. It make rust proof service life longer and easily clean. There also has security device, when you open door, the machine will stop.

Technical Parameters:

Capacity	80-120 boxes/min
Power supply	1ph. 220/380V, 50/60Hz
Main motor power	0.75 KW
Packing dimension	L(48-180)*W(30-110)*H(15-50)mm
Net weight	950kg
Leaflet Size	(70-200)*(70-140)mm
Machine dimension	1300*1150*1660mm
Standard model applicable box size range(mm):	A : L (115-220) * W (90-135) *H (20-40)
	B : L (70-125) * W (25-90) *H (17-35)
	C : L (70-115) * W (20-40) *H (20-40)
	D : L (100-200) * W (35-70) *H (25-57)
