

Olive Oil Weighing Filling Machine TPP-ZL 2A/4A

This olive oil weighing filling machine is used for all kinds of peanut oil, rapeseed oil, salad oil, olive oil, cooking oil, soybean oil, sesame oil, pepper oil, vegetable oil etc. also olive oil weighing filling machine is widely used in low viscosity liquid filling such as fruit juice antifreeze, glass water seasoning, wine, liquor, olive oil, etc.

Feature:

- 1) This type olive oil weighing filling machine is used for all kinds of peanut oil, rapeseed oil, salad oil, olive oil, cooking oil, soybean oil, sesame oil, pepper oil, vegetable oil etc.
- 2) Semi automatic type, rational design, small and exquisite, easy operation.
- 3) Olive oil weighing filling machine made of 304 stainless steel of the contacting part, conformed to rules of GMP.
- 4) Both the filling quantity and filling rate can be arbitrarily adjusted with high accuracy.
- 5) Olive oil weighing filling machine is consists of magnetic air cylinder, hydro cylinder, Electrical Controls component, simple structure, small occupy, easy to operate.
- 6) Olive oil weighing filling machine can fill oil quantitatively, the air cylinder drives piston of the oil cylinder and moves repetitively, it has advantage of high-precision adjustment.
- 7) Olive oil weighing filling machine is equipped with air compressor.

Introduce:

Olive oil weighing filling machine is widely used in low viscosity liquid filling such as fruit juice antifreeze, glass water seasoning, wine, liquor, olive oil, etc.

Technical Parameters:

Model	Capacity	Filling head	Filling scope	Power	Dimension	Weight
TPP-ZL2A	200-500pcs/hr	2 pieces	100-1000ml 500-5000ml 5000-10000ml	0.37kw	700*700*1900	150kg
					mm	
TPP-ZL4A	400-900pcs/hr	4pieces	100-1000ml 500-5000ml 5000-10000ml	0.55kw	1200*750*1900	230kg
