

SN-250BK High Speed Cards Feeding Machine

Features:

1. The card feeding machine adopts servo control and directly connect to the packaging machine to make the counting more accurate.
2. Adopt PLC&HMI programming software, easy operating and setting
3. Digital self-failure diagnosis function, clear failure display
4. Packing speed and bag length adopt dual frequency conversion control, digital sealing and cutting position input, which is precise, beautiful, and solid.
5. High sensitivity photocell tracing, input cutting & sealing position digitally, extra accuracy.
6. Positioned stop function, without sticking knife or wasting film.
7. Simple driving system, reliable working. convenient maintenance.
8. PID control temperature independently which is more suitable for pack rate.

Application: Candy, cigarette holder and dates so on.

Optional configuration:

1. Code machine
2. Straight lines in the code printer seal round
3. Reticulate end seal mould
4. 7-inch touch screen

Technical Parameters:

Model	SN-250BK
Film width	Max.250mm
Bag length	40-90mm
Bag width	230-80mm
Product's height	0-.35mm
Packing speed	30-200bags/min
Power	220V 50/60HZ 2.4KW
Machine dimension	3770x670x1450
Machine weight	500kg
