

Automatic Stick Milk Powder Packing Machine TJ-300F

Automatic Stick Milk Powder Packing Machine are widely used in food, medicine, feed, veterinary drugs, chemicals, additives, desiccants and many other industries. The whole machine is designed in accordance with GMP standards.

Features:

1. The bag making system of the Automatic Stick Milk Powder Packing Machine adopts the stepping motor subdivision technology, the bag making precision and the error are small.
2. The Automatic Stick Milk Powder Packing Machine can automatically print the batch number or production date. All parts in contact with the packaged materials are made of stainless steel. Ensure cleanliness
3. Rotary cutter, the packaging speed is fast, and the cutter position can be adjusted freely during the running of the machine.
4. Four-way heating control of heat sealer, each side of the seal can be separately tempered; the heat balance is good, the sealing quality is guaranteed, and it is suitable for a variety of packaging materials.
5. Photoelectric color mark positioning control system.
6. The controller is displayed in both Chinese and English, which is intuitive and clear.
7. The side-opening protective baffle with good visibility makes the Automatic Stick Milk Powder Packing Machine safer to operate.

Technical Parameter:

Model	TJ-300F
Packing speed	30-60 bags/min
Making bag size	W:20-150mm L:30-170mm
Packing volume	No more than 330ml
Voltage	220V
Overall dimension	250kg
Weight	930X780X1700mm
