

Automatic Snacks Packing Machine JY-169

Feature

1. External sealing paper is controlled by stepping motor. Stable bag length, accurate positioning.
2. Adopt PID thermo regulator to guarantee more accurate temperature.
3. Adopt PLC to control the operation of the whole machine. Human-computer interface, easy operation.
4. All the parts of accessible materials are made of SUS403 stainless steel to ensure the products are hygienic and reliable.
5. Parts of working cylinder apply components imported with original packaging to ensure precise and stable performance.
6. The attachments can implement the flat cut, date printing, easy-to-tear-function, etc.

Parameter:

Machine model	JY-169
Filling range	1-15g
Size of inner bag	(W)45-80mm (L)50-80mm
Size of outer bag	(W)75-90mm (L)80-120mm
Label size	40,45,50mm (Film width)

Thread Length	210mm
Power	220v/50hz, single phase
Weight	650KG
Wattage	3500 W
Max.Packing speed	30-50 bags/min
Machine size	1750*740*1950mm
Packing material	Inner bag is filter paper Outer bag is Paper/PE, plastic/foil/PE and plastic/PE
