

Flour / Coffee Powder Mixer Machine WLDH-2000

This Mixing Machine is widely used in chemical industry, plastic, rubber, food, medicine, polymer, building, fireproof materials and other particles, powder, liquid material mixing. Working Method: This horizontal ribbon Mixer Machine is arranged on the transmission main shaft double-layer spiral blade, the external blade will transport the material to the middle, the internal blade will transport the material to the outside.

Technical Parameters:

- Model No.: WLDH-2000
- Application: Powder, Medicine Processing, Chemicals Processing, Food Processing
- Barrel Volume (L): 2000 L
- Max. Loading Volume (L): 1200 L
- Weight (KG): 2100 KG
- Voltage: 220V 380V 415V 440V
- Power (kW): 15 KW
- Dimension(L*W*H): 3310*1120*1640mm
