

Automatic Single Fully Sealed Packaging Machine ZF-Z240/260

ZF-Z240/ZF-Z360 mainly used for fully sealed shrink packaging of single product. The packaging speed can reach 80-100 pieces per minute. Packaging effect is very beautiful. Feeding system can be connected to existing production line to improve production efficiency.

Features:

1. The conveyor belt can be easily connected to existing production line.
2. Finger-push conveyor belt is mainly used for packaging and printing products, and it can be equipped with automatic paper feeding machine according to the needs of customers.
3. The guide rail push rod conveyor belt is suitable for combined packaging and can be customized according to the product size and shape, with a wide range of applications.
4. Through the humanized touch screen design, the operation is easier.
5. Product setting parameters can be conveniently read from the touch screen memory.
6. Side sealing can use the new double-pressing wheel side sealing system to adapt to different packaging films, sealing more stable and faster.

Specification

Model:	ZF-Z240	ZF-Z260
Machine size L*W*H(mm):	5020*1190*1650	6370*1190*1650
Product size range L*W*H(mm):	(100-300)*(40-100)*(20-100)	(100-300)*(40-250)*(20-100)
Power supply:	1P/220V/50HZ/6.5KW	1P/220V/50HZ/6.5KW
Packing speed:	80-100packs/min	80-100packs/min
Net weight:	1500KG	1600KG
