

GTX-1 Roller Bottle Washing Machine

Suitable for all kinds of round and irregular-shaped bottles in various materials from 30ml to 500ml while adopting two-times water washing and one-time air washing to wash bottles inside and outside, which makes the washing process comply with working flow requirement. The machine can also preliminarily dry bottles.

Technical Parameters:

Production capacity(pcs/min)	≤ 120 (depends on the bottle size)
Power supply	380V 50Hz
Power(kw)	1.6
Water consumption(t/h)	0.6-1
Air consumption	15m ³ /h, 0.3-0.4kg/cm ³
Weight(kg)	600
Overall dimensions(L × W × H)(mm)	1,100 × 900 × 1,100
