

## *Automatic vertical grain sachet Packing Machine KF02-G*

### **Features:**

- All stainless steel cover meets to GMP standard. All machines meet European CE certification.
- Equipped with antipollution and dustproof device.
- Automatic adjustment of pouch size and filling range.
- Photocell controller is easy to manipulate.
- The horizontal sealing uses high temperature resistant bearing which will ensure the continuous operation of the machine without filling the oil regularly.
- The operation facility is controlled by American intel computer, all function is displayed with digital screen.
- Minimum sealing temperature variation employs PID temperature, the tolerance is controlled by  $\pm 1\%$ .
- Sealing part: Roller spend process is special designed and the effect of sealing is very well.
- Equipped with easy open system.

**Technical Parameters:**

<b>Model</b>	<b>KF02-G</b>
Control System	PLC / MCU
Metering Methods	Volumetric cups
Packing Speed	30-80bags/min
Filling Range	3-50ml/50-500ml/100-1000ml(Depending on the material may be)
Filling Accuracy	±1%
Bag Size	L50-300mm W30-150mm(can customize the size)
Sealing way	3 side seal , 4 side seal , back seal(pillow bag)
Power	1.7kw 220V AC
Dimensions	700*770*1650mm
Weight	300kg
