

## *CNA100 (A) Semi-Automatic Gummy Candy Line*

The CNA series semi-automatic gummy candy line is a product specially designed by Sinofude Machinery for making different types of gummy candy, marshmallows, hard candy, and toffee candy. The semi-automatic gummy candy line can be equipped with different molds, such as blister film molds, silicon molds, aluminum molds with Teflon coating, and PC molds. Easy to operate, maintenance and multifunctional are the strong advantages of this kind of small line. It can make functional products containing CBD, THC, or other vitamins and minerals.

### **Description**

The semi-automatic gummy candy line is ideal for producing good quality gummies. It has the added advantage of saving workforce and space, making it suitable for starting or lab research purposes. Optional with touchscreen, servo, and PLC for easier operation. One shot system can produce one-color, two-color, or multi-color center-filled gummy candies by changing the manifold and nozzles.

### **Features**

The semi-automatic gummy candy line was designed according to pharmaceutical machine standards, with a higher level of sanitary structure design and fabrication. The line uses SUS304 and SUS316L stainless steel materials and can be equipped with UL-certified or CE-certified components.

## Technical Parameters

<b>Model</b>	<b>CNA100</b>	<b>CNA100-A</b>
Capacity ( kg/h)	30~50	30~50
Speed (n/min)	15~20 stroke/min	15~20 stroke/min
Candy weight (g):	As per candy size	As per candy size
Electric power (kW)	0.75	01.май
Driven Type	Cylinder	Servo
Compressed air	0.6m3/min	N/A
C-Air pressure	0.4-0.6 Mpa	N/A
Conditions		
1.Room temperature(°C)	45~55%	45~55%
2.Humidity (%)	45~55%	45~55%
Machine Length (m)	3.5m	3.5m
Gross weight (Kgs)	200	220
