

Spout bag filling capping machine/stand up pouch filling machine CB-1000

CB-1000 Spout bag filling capping machine/stand up pouch filling machine used for any liquid's automatic bags supplying, filling and capping, such as juice, milk, jam, yogurt, seasonings, food industry and medicine, daily chemical, pesticide and other industries.

Full function, rational structure, easy operation and maintenance. It conforms to food hygiene standard. This machine combines machine, electricity and air. Electric and pneumatic components adopt imported devices, reliable performance, long service life, convenient repair, and install leakage protection, protect personal safety.

Working process:

- Touch screen operation device;
- Fully automatic pouch supply;

- Photoelectric detection and tracking. No bag no filling device;
- Automatic quantitative filling;
- Fully automatic bag cleaning;
- Fully automatic cap supply;
- Fully automatic capping;
- Fully automatic bag dropping;
- Automatic control the liquid level;
- Emergency Stop device.

Technical Parameters:

Model:	CB-1000
Capacity:	1000 Bags/hour
Filling Range:	50-500 ml
Accuracy	+/-1.5%
Power:	380V, 50Hz
Weight:	400KG
Dimension:(L*W*H)	2050*1200*1750 (mm)
Air pressure	6Kgf/cm2
