

Automatic Powder Packing Machine DXD-300F

DXD-300F Automatic Powder Packaging Machine is suited for the continuous filling of many different types of powders with fluidity and loose packing density, such as flour, coffee powder, lotus root powder, soy milk powder, milk powder, bone strengthening powder, granules, nutraceuticals, and other materials.

Feature

- An advanced digital photoelectric system that makes bag length and film pulling speed adjustable within the specified range;
- An advanced color mark sensor;
- An advanced synchronized film pulling system for enhanced stability and accuracy;
- 3- or 4-side seal pouches or back seal bags (pillow pouches) are available. A thermal transfer printer and an easy-tear cutter can be added.

Specifications

Model	DXD-300F
Packaging Speed	20~40 bags/min
Filling Range	30-100g
Bag Length	30-160mm
Bag Width	80-150mm
Bag Format	Back Seal
Power Supply	Single Phase 220VAC 50Hz
Total Power	1.1kW
Air Source	Pressure: 0.5~0.7MPa Consumption: $\geq 0.03\text{m}^2/\text{min}$
Dimensions	950×800×1650mm (L×W×H)
Total Weight	Approx. 200kg
