

SF-GSF1 Automatic Gear Pump Bottle Jar Fruit Puree Jam Filling Machine

The fully automatic gear pump liquid filling machine is suitable for products such as sauces, pastes, beverages, including ketchup, BBQ sauce, hot sauce, pasta sauce, meat sauce, mayonnaise, tartar sauce, garlic sauce, hummus, jam, honey, syrup, polenta, instant soup, pet food, etc.

Features

1. The machine can automatically complete a series of work processes such as bottle feeding, metering, filling, and bottle discharging.
2. The filling head is made of SUS304 stainless steel, which is corrosion-resistant and has a long service life.
3. It has automatic discharge and cleaning functions. There is no need to disassemble parts. Filling water can discharge and clean.
4. No need to change accessories, it can adapt to bottles of different sizes by adjusting the hand wheel.
5. It adopts intelligent PLC control. After the machine arrives at the factory, it can be used without debugging.

Technical Parameters

Model	SF-GSF1
Filling head number	1
Filling range	20-500ml
Bottle height	30-200mm
Bottle diameter	15-100mm
Filling speed	1200-3000 bottle/hour
Measurement accuracy	$<\pm 1\%$
Power	220V, 50/60Hz, 3.5kw
Air pressure	0.6-0.8mpa
Machine size	1800(L)*850(W)*1400(H)mm
Machine weight	150kg
