

LTPK LT-50SD Semi Automatic Round Bottle Labeling Machine With Stainless Steel Material With Printer

This semi automatic labeling machine is designed for labeling sticker on round bottles like beverage bottle, make up remover bottles, water bottles, food cans. It can adjust the outputting distance of labels slightly. This machine has a reasonable structure, reliable performance and simple operation with optical detection and accurate labeling.

Application:

Suitable for labeling circular containers in industries such as food, cosmetics, daily chemicals, electronics, hardware, plastics, etc

Technical Parameters

Model	LT-50SD
Voltage	110/220V,50/60Hz
Power	120W
Labeling speed	About 20-40pcs/min
Diameter of bottle	20-120mm
Min. label size	Width 30mm* Length 30mm
Max. Label size	Width 130mm* Length 300mm
Outside diameter of label roll	260mm
Inside diameter of label roll	76mm
Accuracy of labeling	±1mm
Package size	About 650*350*550mm
Package weight	About 35kg
Coding device	1-3 lines adjustable
