

## HC-180T Horizontal Twin Linked sachet Packing Machine

Horizontal twin pack sachet packing machine is an ideal bag packing equipment that meets the requirements of high-quality packaging and smaller bag type. The packaging speed is fast and can realize the three-side sealing and four-side sealing bag types. This machine is suitable for powder, particle, liquid, paste, solid, and other materials packaging needs; Roll film molding reduces the cost of packaging.

### Technical specifications:

Model	HC-180T
Type Of Pouch	3/4 side seal
Min. Pouch Size	100×80mm
Max. Pouch Size	180×210mm
Packing Speed	< 60 Pouch/min
Packing Range	Max 200ml
Filling station	2
Power	5kw
Volt	380V 3P 50Hz
Air Consumption	300L/min
Air Pressure	0.6 Mpa
Machine weight	1400kg
Machine dimension	3650×1000×1450mm
