

DZH-120 Automatic Cardboard Machine

The DZH-120 horizontal automatic cartoning machine is designed for cartoning ointments, glass bottles, and soft packaging (condom packaging), such as pharmaceutical plates, plastic bottles, glass bottles, BFS, tubes, trays, soap, cosmetic products, granules, and so on.

Features

1. PLC automatic control, frequency conversion of speed regulation, using world-renowned brands of electrical appliances.
2. Automatic detection of leakage and rejection of the tablet plate and operating instructions.
3. The product doesn't suck the manual, and the manual doesn't suck the box.
4. No automatic shutdown box, no continuous manual automatic shutdown.
5. It is convenient to replace various product specifications.

Technical parameters

Article number		DZH-120
Cartoning speed		30-120 boxes/min box/min
Cardboard Box	Quality requirement	300-350g/m ²
	Size range	(60-200) mm× (25-85) mm× (15-65) mm
	(L×W×H)	
Technical specifications	Quality requirements	60(75)g/m ²
	Size range when unfolded	(80-300)mm x (70-210)mm
	(L×W)	
	Folded size range (1-4 folds)	(70-210)mm×(20-40)mm
Compressed air	Operating pressure	0.5-0.7mpa
	Gas consumption	300L/min
Power source		380V 50HZ
Main engine power		2.0kw
External size (L×W×H)		3100mm×1180mm×1950mm
Net weight of the whole machine		Approximately 1500 kg
