

ZL14-2.5L Automatic Frozen Food Weighing Filling Packaging Machine

This unit machine is special design for packaging frozen food like shrimp, meat ball, Chicken pieces dumpling and Toufu in to plastic bag. The whole machine have the function of automatic product feeding, weighing, film bag forming, bag sealing ,Including date coding, bag counting. The finished bag is output from conveyor machine which no need manual collect the bag and avoid the bag polluting.

Application:

This weighting machine r is suitable for weighing different frozen food like frozen fishes, fruit, frozen dumplings, rice dumplings, etc., Adopt Dimple Plate and waterproof electric cabinet. Can Work in an environment with high humidity.

Features:

- Special load cell with high precision and high standard.
- Program recovery function can reduce operation failures, support multi-segment weight calibration.
- No products auto pause function can improve weighing stability and accuracy.
- Linear amplitude can be adjusted independently, can make the feeding more uniform.
- 15 languages available for global markets.
- 100 programs capacity can meet various weighing requirement, user-friendly help menu in touch screen contributes to easy operation.

Specifications:

Model	ZL14-2.5L
Max. Max.Cap.(g)	100-1500g
Weighing Accuracy	0.1-0.2%
Weighing speed	20-60WPM
Hopper Capacity	2.5L
Control system	MCU
Operation Panel	7 inch touch screen
Power Supply	AC220V $\pm 10\%$,50Hz(60Hz)1.5KW
Gross Weight	850kg
