

DZQ-700/2SA Biscuit Vacuum Packing Machine

The DZQ-700/2SA double-chamber vacuum machine is an advanced and highly efficient packaging device designed for vacuum sealing of food, pharmaceuticals, and other products. It features two independently operating vacuum chambers, allowing users to process multiple packaging bags simultaneously, thereby significantly enhancing work efficiency and production capacity.

Product Description

Advantage

- Customizable vacuum pump options (40m³, 60m³, 100m³), with greater pumps providing stronger suction.
- Made entirely of stainless steel.
- Patented technology for easier movement of the vacuum cover.
- Large concave chamber space.
- Electrical control box installed separately on the machine's side for convenient maintenance.
- High flatness requirements ensure long-term use without deformation.

Technical Parameters

Model	DZQ-700/2SA
Voltage	3phase 220/380V 50-60Hz
Pump Power	3kw
Pump Capacity	100m ³ /h /Option
Sealing Length	700mm (x4)
Sealing Width	10mm
Cover Size	900x700x210mm
Weight	≈325kgs
Certification	CE ISO
