

SH-NIC4 Automatic 4 Heads Glass Plastic Bottle Cleaning Air Rinsing Machine

Main Feature

- ▶ Utilizing ionized air and a vacuum system, effectively removes dust and fine particles from inside the bottle.
- ▶ Multi-head design enables simultaneous bottle rinsing, improving production speed and efficiency.
- ▶ Adjustable air nozzle quantity, conveyor size to match different production needs.

Parameter

- Machine Model: SH-NIC4
- Voltage: 220V/110V 50-60 Hz
- Power: About 2.7kW
- Working Speed: About 40-70 Bottles/min(Depending On Bottle Size)
- Suitable Bottle Size: Can Be Customized
- Air Pressure: 0.6-0.8MPa
- Air Consumption: 6-8m³/h
- Air suction capacity: 30 m³/h
- Machine Size: About 2000*800*1900mm(L*W*H)
- Package Size: About 1900*1020*2100 mm
- Package Weight: About 320KG
