

SH-AFC20C Monoblock Peristaltic Pump Nasal Mouth Spray Bottle Liquid Filling Crimping Packaging Machine

Main Feature

- ▶ Integrated filling, cap feeding, and crimping in one machine to improve efficiency.
- ▶ Peristaltic pump controls filling, liquid will only pass through the hose, ensuring cleanliness and preventing contamination. Quantity of filling nozzles can be customized as needed.
- ▶ Vibratory bowl sorter automatically sorts and delivers caps in the correct orientation.
- ▶ Accurate cap placing & crimping, ensuring precise cap placement and secure sealing.

Parameter

- Machine Model: SH-AFC20C
- Voltage: 110/220V 50-60HZ
- Power: 1.5KW
- Filling Pump: Peristaltic Pump
- Recommended Filling Volume: 5-20 ml (customizable)
- Maximum Flow Rate: 1.5L/minute for per nozzle (water-based)
- Filling Nozzle Quantity: 2 (customizable)
- Production Capacity: 20-30 bottles/minute (depending on filling material and bottle size)
- Suitable Bottle Size: Customizable
- Suitable Cap Diameter: Customizable
- Machine Size: About 2355*1567*1535mm(L*W*H)
- Package Size: About 1980*990*1630mm(L*W*H)
- Package Weight: About 450kg
