

SL100 - Safety Tape Application Machine

The SL100 is a compact tamper band applicator designed for reliable and efficient low-to-medium capacity production lines.

Engineered for stable operation and easy integration, the machine provides precise tamper-evident band application across various container formats and cap sizes.

Features

- Designed for tamper-evident band applications
- Compact and space-efficient machine design
- Reliable and efficient production performance
- CE-compliant machine design
- Servo-controlled operation via touchscreen control panel
- User-friendly electro pneumatic system
- Mobile chassis for easy transportation and line integration
- Compatible with different container sizes and cap diameters
- Motorized machine head height adjustment
- Automatic film tension control system
- Production speed varies depending on cap diameter and label cut length
- Guillotine-style cutting blade system
- Additional spare blade set included
- Compatible heat tunnel configuration selected according to application requirements

Technical Specifications

Dimensions (L × W × H)	1120 / 1100 / 2000 mm
Weight	150 kg
Power Supply	3 Phase / 380 V / 50-60 Hz
Installed Power	0,49 kW / 380 V
Production Capacity	Up to 50 bpm*
Label Cut Length	25 mm - 100 mm
Label Width	45 mm - 195 mm
Label Thickness	0,035 mm - 0,080 mm
Compatible Materials	PET / PVC
