

## Carton Box Automatic Sealing Machine WP-CF

### Feature:

- 1) The machine is manufactured using international advanced technologies. Parts, electric, elements and pneumatic elements are imported.
- 2) Width and height can be manually adjusted according to carton specifications.
- 3) The top cover of carton is automatically folded and the top and bottom covers of the carton are automatically stuck with tapes in a quick, smooth and good looking way.
- 4) The machine is installed with a blade protection device to avoid stabbing during operation.
- 5) The machine can be operated independently or work with an automatic packaging line.

### Specification:

Item No.	WP-CF
Max. Carton Box	L*W*H=600*500*500mm
Min. Carton Box	L*W*H=200*150*150mm
Conveying Speed	0~20m/min
Applicable Tape Size	48mm, 60mm, 75mm
Power Requirement	400W/ 220V/ 50(60)HZ
Aire Pressure	6kg/cm <sup>3</sup>
Machine Size	1770*850*1520mm
Machine Weight	250KG
