

## *High Speed Cosmetics Shrink Wrapping Machine*

Cosmetics Shrink Wrapping Machine suit for grouped food and drinks, bowl noodles, milk tea, mosquito coils, wallpaper, exercise books, filters, electrical switches, a variety of stationery, industry parts, commodities, and cosmetics, etc. Please click ["here"](#) to check all kinds of samples.

### **Description:**

This High-speed garbage bag Shrink wrapping machine is produced according to Japanese Techniques with their developed technique and rich experience, and all electrical elements are imported. This machine can be easily operated, of good quality and stable performance. the speed can be frequency varied but not classed. PLC is equipped to control the unit to reduce failure points. Circulated high-efficiency air and auto temperature control at high-efficiency area of heated contract furnace ensure contracting quality. This machine is mainly used in the packaging of garbage bag/trash bag rolls, which can realize automatic feeding and automatic label feeding.

### **Feature:**

- Packaged in single or at will.
- Safe devices are equipped to protect inner content.
- Additional recycling devices make it look pleasant and material saving as much as 3%-10%.
- Color touch control system, easy operation and look good; PLC control system ensures a more stable, reliable system with fewer failures; length of the belt, speed and temperature may be separately regulated, easy and accurate.
- Auto code printer may be equipped on demand, no manual numbering required.
- This high-speed shrink wrapping machine is equipped with electrical brake control which is reliable and quick.

**Technical Parameters:**

Max film size	≤590mm	
Max film size	L:180mm-530mm	
	B:30mm-200mm	
	H:50mm-130mm	
Packing size	30-150(bags/min)	
Packaging speed	PVC, POF, OPP, PE etc shrink film	
Film type	3.6KW+16.5KW	
Power consumption	Main body 220V, 50HZ ; oven 380V, 50HZ	
Power supply	5000×965×1750mm	5000×1105×1750mm
Envelop dimensions	2500×600×1700mm	2500×600×1700mm
Weight	Main body: 1000KG	Oven: 600KG
