

Flat Labeling Machine

This Automatic Flat Labeling Machine is applied to label the self-adhesive label on various flat surface products, as books, file folders, cases, cartons, bags, etc. This machine is widely used in electrical, pharmacy, foodstuff, beverage, cosmetic and chemical etc industries.

Technical Parameters:

| | |
|------------------------------|--|
| Labeling Speed | 40 ~ 120pcs/min (with the length of the product concerned) |
| Labeling Precision | ±1mm (exclude the product and label deviation) |
| Product Size Applicable | 15≤Width≤250mm, Length≥10mm |
| Label Size Applicable | 15≤Width≤150mm, Length≥10mm |
| Thickness | 0.2mm ~ 80mm |
| Use Electricity | 110/220V 50/60HZ |
| Equipment Dimensions (L*W*H) | 1600*800*1400mm |
| Weight | 180KG |

Above technical parameters for the standard model, if other special requirements and functions can be designed.
