

NJP-1200 Full Automatic Pharmaceutical Hard Capsule Filling Machine

The machine is designed and further improved on the base of original full automatic capsule filling machine from both home and abroad. With high technology and exclusive performance, it has reached international leading level.

It is ideal equipment for capsule and medicine in pharmaceutical industry which is in full compliance with GMP requirements.

Feature:

1. It has been improved the inner design turret, and imports beeline bearings for each machine from Japan directly, so that it can be sure a longer usage-life and precision of machine.
2. The working station cam runs under the good lubricating condition, and maintains the inner lubrication of cam slot to a full extent, increasing the pressure pulverization oil pump, thus extends the operation life of the spare parts.
3. It is controlled by the computer, has a stepless timing with the frequency-conversion, the numeral showing makes an easy operation and clear appearance.
4. The multi-bore dosing brings a precision dosage (it is controlled around $\pm 3.5\%$); The capsule qualified rate is higher than 99%..It can be filled with the Chinese traditional medicine and the Western medicine.
5. It has protector equipment for the operator and the machine. It has automatic pause equipment when it is lack for the material. It has a steady and safe working; it is the best choice for the hard capsule made factories.

Technical Parameters:

Model	NJP-1000	NJP-1200
Productivity	60000 capsules/Hour	72000 capsules/Hour
Size of Capsule	Capsules Size 00"-5" and safety capsule A-E	
Total Power	9.55KW	
Water Supply	500L/H,0.2-0.10Mpa	
Dust Collector	160m ³ /H	
Size	1020x860x1970MM	
Weight	900KGS
