

APC-D901 Pressure Capping Machine

Accomplish cap ordering, cap adding, cap pressing automatically. According to customer's different cap, design specialized capping away. Equipped with human-computer interface and PLC control system, Ensure more stable operation and easier handling. Self-diagnose errors and stop working to make alarm at errors and missing bottles, caps. It keeps the working process continuous and inerrant avoids any waste of materials.

Feature:

1. Strong compatibility, Pressure Capping Machine suitable for various sizes of cap shape, bottle shape.
2. A fall in the lid, put on the cover device is suitable for various specifications of bottle caps
3. Don't work have no bottle, no cover, slanting cover, back cover, no foil test, check the alarm control function, breakdown self-check, etc. to ensure continuity and accuracy
4. Full automatic operation, intelligent control of each process, good coordination, saving labor

Data sheet:

<u>Applicable bottle shape:</u>	20 ~ 500 ml round, oval, square and flat bottles
<u>Production capacity:</u>	35~80 bottles per minute
<u>Power supply:</u>	AC220V 50Hz1.8kw
<u>Air pressure:</u>	0.6Mpa
<u>Overall dimension:</u>	1850×600×1560mm
<u>Weight:</u>	550kg
