Semi-Automatic Labelling Machine Double Labeler for 2 labels with Printer SL-130

This machine label 1 round bottle with 2 labels, so long as the 2 label's length is same.
This label machine is used for labeling and coding on various round bottles, coding, such as: glass bottles, plastic bottles, cans and so.

Features

1. Adopt precise electromagnetic clutch
2. Advanced aluminum alloy anodizing with much longer lifetime
3. Excellent motor can meet the large load, long-time operation
4. All parts and standard parts are made of stainless steel materials and refined
5. PLC control panel and lCD display
6. Excellent inspection standard optical dipole to ensure high precision

Parameter Date

Model :	YTK-130
The power supply voltage :	AC200V/50HZ
Power :	150W
Max Label size :	120 (W) x 300 (L) mm;
minimum label Size:	10 (W) x 30 (L) mm;
Round bottle size	
Minimum:	20mm
maximum:	125mm
Inner diameter :	75mm
Outer Diameter:	300mm
Size :	580 x 680 x 860mm
Net weight:	45kg (including code machine)
