

GOLDEN LIN

Semi-Auto Capsule Filling Machine GL-F2

Characteristics:

Features:

1. All stainless shell, hopper and plates meet GMP requirement
2. Infinitely variable fill table speed with independent power for fix point filling, results in precise weight within 3% deviation
3. A hydraulic poer joint system increases joint efficiency, without any damage to capsule
4. A special design allows for changing molds for different size capsule within 15 minutes easily, simply, precisely
5. Simple structure, easy to maintain and clean
6. So simple to operate one can learn in 10 minutes, only one operator required
7. No noise, no public hazard
8. All new semi-automatic capsule filling machine is an improvement over the old-style filling machine, improved design results in faster production, more accurate filling, safer operation, less maintenance and less labor

Applicability:

1. Capable of filling capsules sie 00-0-1-2-3-4
2. Can fill material in either powdered or granulated forms

Specifications:

Packing Date	
Measurement	L2000*W800*H1500cm
Packing Size	L1600*W1200*H1700cm
Net Weight	600 kgs
Gross Weight	740 kgs
Technical Date	
Capacity Capsule	Max.25,000 pcs/ hour
Power Supply	AC220/380V 50/60Hz
Power Consumption	Machine 1-1/4 HP
	Hydronic 1HP
	Vacuum 2HP
