

## CCE-400A Automatic Vertical Granule Packing Machine

The machine is suitable for automatic packing particle materials like melon seeds, chocolate, biscuits, peanuts, millet, seeds, nuts, coffee beans, lima beans, sugar, corn meal, tea leaf and desiccant.

### Description

- Professional design, simple structure.
- Controlled by single-chip computer, stepping motor, convenient and correct bag length setting.
- Simple, fast speed regulation
- Optional: continuous-packing control device, gas-filled device (air source supplied by user), hole punching device.
- Use the Volumetric cup to do the weigh system.

### Technical Parameters:

Weighing Range	5-500g
Working Speed	15-70bags/min
Bag pattern	Back sealing,3 side sealing
Bag size	W:20-180mm L:50-250mm
Packing material	OPP/CPP PET/PE PET-AL/PE
Air consumption	0.6m <sup>3</sup> /min 0.8Mpa
Power supply	AC220V 50Hz/60Hz 2.5kw
Film width	60-350mm
Film thickness	0.04-0.08mm
Machine Weight	300kgs
Dimension	1200*900*1900mm
