

Granules Packing Machine FSJ-420B

This packaging machine adopts PLC control system, advanced touch screen, automatic photo electricity orientation track sensor, digital temperature controller, make the machine easy to operate, improve work efficiency and save labor, can be widely used in various kind of products, can do form filling, sealing, weighing, date printing with one machine.

Technical parameters:

Model	FSJ-420B
Bag length	50-300 mm
Bag width	50-200 mm
Power supply (VAC)	220V
Power (KW)	2.5Kw
Max width of roll film	420
Packing speed	5-50 Bag/min
Measuring range	50-500g Can be customized according to customer requirements
Air consumption	0.65mpa
Dimensions (MM)	1450x1300x1800
Net weight (KG)	620
