

Automatic Side Sealing Machine ZF-BF400-Z

Side sealing machine ZF-BF400-Z Continuous motion can pack products of different sizes and quantities, and the length can be adjusted. The conveyor belt can be easily connected to the existing production line.

Features:

1. The guide rail push rod conveyor belt is suitable for combined packaging and can be customized according to the product size and shape, with a wide range of applications.
2. The user-friendly touch screen design makes the operation easier.
3. Product setting parameters can be conveniently read from the touch screen memory.
4. Side sealing can use the new double-pressing wheel side sealing system to adapt to different packaging films, sealing more stable and faster.

Specification

Model:	ZF-BF400-Z
Machine size L*W*H(mm):	5374*1620*1376
Sealing blade size L(mm):	430
Product size range L*W*H(mm):	(70-500)*(50-300)*(5-120)
Power supply:	1P/220V/50HZ/3KW
Net weight:	1650KG
