

## *BTB-C Semi-automatic Cellophane Wrapping Machine*

BTB-C semi-automatic transparent film packaging machine is widely used in test paper, cosmetics, medicines, food, health care products, audio and video products, stationery, daily necessities and other three-dimensional body packaging outside the transparent film packaging (packaging effect same as cigarette does).

### **Features:**

1. Film packaging with function of anti-moisture, anti-dust, anti-oil, anti-counterfeiting and so on.
2. Compare with shrink packaging machine greatly improves qualified-finished products rate and decorative effect, increase market competitive, enables significant increase in sales, and increases the added value of the products.
3. It saves more than 80% of electricity compare with shrink wrapping machine. After using two years, the electricity savings could buy a semi-automatic transparent film packaging machine.
4. The price is acceptable for 99% clients, only cost one-third of automatic film packaging machine.
5. Stable operation, high reliability, almost no maintenance.
6. Machine with good adaptability, one machine able to pack dozens of specifications of the box. Mold is cheap and easy to change, as well as replacement.
7. Compact structure of the whole machine occupies a small space, light weight, and the packaging site is almost unlimited.

**Machine Detail Specs:**

<b>Model:</b>	<b>BTB-C</b>
Packaging Speed:	15-30 boxes/min
Packaging Material:	BOPP film and golden easy-tear film
Packaging Size:	L(50-300)*W(20-150)*H(10-90)mm
Machine Dimension:	1800×850×1000mm
Machine Weight:	About 200kg
Total Power supply:	2.4kw
Voltage Supply:	220V/(50Hz) or 380V
