

Granule and Powder Packing Machine With Double Measurement DCKF-300\400

This series installed both dosing system, one for pack granule products such as seasoning, monosodium glutamate, sugar, coffee, tea etc. Another for pack powder products such as milk powder, spices, chilli powder, flour, medicine powder, etc.

Features

It is Suitable for packing food, chemical, pharmaceutical, veterinary medicine and other industries of small granule and powder products, Such as soy milk powder, oatmeal, seasoning, washing powder and other products. It is also suitable for the automatic packaging of fine granular materials with good fluidity, such as salt, sugar, coffee, toner granules and so on.

Machine features

1. Bag-making, measuring, filling, sealing, cutting and counting are all finished automatically.
2. Either under set length control or photo-electronic color tracing, we set bag length and cut in one step. Time and film saving.
3. The temperature is under independent PID control, more suitable for different packing materials.
4. The driving system is simple and reliable, and maintenance is easy.

Technical specification:

Model	DCKF-300\400
Cutting type	Zigzag cutter\Rotary straight cutter with tear down
Sealing type	Vertical sealer and horizontal sealer: diamond\line
Packing speed	20 - 60bag/min (Depend on Products)
Bag size	L 50-90mm* W 30-60mm (single bag size)
Total power	2.6kw
Voltage	220v 50HZ 1P(need to be confirmed)
Weight	320Kg
Machine size	L×W×H : (950*840*1900)mm
