

Stainless Steel Horizontal Belt Conveyor

Stainless steel horizontal belt conveyor is well suited for a broad range of free-flowing products in the food, agricultural, cosmetic, chemical industry, such as snack foods, frozen foods, vegetables, fruit, confectionary, chemicals and other granules.

Features:

- The conveyor belt is made of food grade PP material with mold method, with good appearance, not easily deformed, bear high and low temperature
- The machine allows for controlled feeds at one or more locations and can easily interface with various types of feeding devices
- The stainless steel horizontal belt conveyor is easy to install and disassemble, and the belt can be washed by water directly.

Optional parts:

1. Machine frame: #304 / #316 stainless steel or carbon steel.
2. PVC, PP, PU, stainless steel belt.
3. Make as per client's requirements.

Technical Parameters:

Model	FM-3F3 Horizontal Belt Conveyor
Machine Frame	304 stainless steel or carbon steel
Belt Material	PP belt, PVC belt, PU belt, Stainless steel belt
Machine Height	To be customized
Voltage	AC220v or three phase 380v, 50hz/60hz
Power Supply	1.1kw
