

## ***DXDK320 Multi-lane Packaging Machine for Granule***

The DXDK320 multi-lane packaging machine for granule is applicable for all kinds of granules, like washing powder, rice, etc.

### **Main Features:**

- A. The equipment supports four-side sealing, as well as high speed and multi-lane packing. It offers high working efficiency.
- B. It is fully automatic due to the design of PLC programmable control system.
- C. Due to the stepless frequency changer for packaging speed adjustment, the granule packing machine offers more reliable and convenient operation.
- D. The photoelectric tracking system is adopted to make sure the printed patterns on both sides of the packaging bag are complete. The automatic counting function makes counting precision.
- E. The machine has automatic batch number printing function, and supports creating of easy-tear notch in longitudinal or transverse direction.

### **Technical Specifications:**

<b>Model</b>	<b>DXDK320</b>
Cutting speed	30-60/min.
Packing speed	120-360bgs/min
Applicable film	Aluminum plastic composite film/ Aluminized film
Measuring range	1-20 g/bag
Bag length	30-120mm
Bag width	50-150mm
Max. number of longitudinal lanes	8
Power	3.5kw
Package size	1270mm×1070mm×1720mm(L×W×H)
G.W.	1000kg
