

Fully Automatic Tray Sealing Machine (TS-630)

The TS-630 Fully Automatic tray sealing machine is suitable for product and so on each kind of box productions.

Has the automatic constant temperature, the artificial seal, to cut functions automatically and so on membrane.

The complete machine use the intelligent number obviously temperature control system, has the seal to be artistic, the box health, the failure rate low status characteristic, Is the dining business automation production first choice product.

Technical Parameter:

Model	TS-630
Power	220v 50/60hz
Power consumption	0.6-0.8mpa
Air pressure	>200l/m
Air source	0.36m ³ /min
Discharge pressure	20
Gas inflation pressure	0.04~0.10mpa
Sealer area	176×116×60mm
Mold size	629×244mm
Replacement ratio	95~98%
Capacity	500-1000 pcs/hour
Work table	480×420mm
Size of box(max)	176×116×60mm (3pcs)
Weight(kgs)	450kgs
Dimension	1200×960×1700mm
